

IRON ORE STORAGE & HANDLING FACILITY

GERALDTON PORT, WA

CLIENT:
MURCHISON
METALS LIMITED

PROJECT VALUE:
\$12.8M

DURATION:
OCT 2005 -
JUL 2006

A turnkey design and construction project consisting of a 100,000 tonne iron ore storage building, truck road receival facility integrated into the Port's existing infrastructure and fully enclosed inloading and outloading conveyors.

The facility is designed to meet stringent environmental standards at the Port location including a fully encapsulated building shell with a negative pressure dust system to eliminate product escape.
