

SULPHUR STORAGE AND HANDLING FACILITY

ESPERANCE, WA

CLIENT:
ESPERANCE PORT
AUTHORITY

PROJECT VALUE:
\$18.5M

DURATION:
OCT 2005 -
SEPT 2006

Design and construction of the Port's sulphur import facility which will service the BHP Billiton Ravensthorpe Nickel operations. Work includes a 120,000 tonne storage building for sulphur prill, product inloading conveyor from the Port's ship unloader and a sophisticated truck loading system with associated hopper and conveyors.

The project is designed to meet stringent environmental standards as well as catering for the highly corrosive sulphur product.
