

MIDLAND BRICK KILN 11 BUILDING
MIDLAND, WA

CLIENT:
MIDLAND BRICK
COMPANY /
SINCLAIR KNIGHT
MERZ (SKM)

PROJECT VALUE:
\$9.055M

DURATION:
DEC 2004 -
MAR 2006

Design and construction of a 10,000 m³ process building for the new Kiln 11 brick manufacturing plant.

This project included detailed design, fabrication and erection of the main kiln building. This building incorporated complex concrete foundations to support the brick manufacturing equipment. The design of the structural also allowed for a passive ventilation system to negate the high temperatures generated from the production process.
